

Chairman's Message...

Dussehra Greetings to all of you !!!

It is my pleasure and privilege to place this news letter of Vikas-The Concept School in your hands. Life can be an extraordinary adventure. However, you must first decide whether you want to make a career or make a difference. Whether you are born or made a leader, you still need knowledge to lead. In order to make a difference or to lead in a child's life, the school designed a number of life skill building activities with the motto "Holistic Education Beyond Schooling". I am sure that our Vikasians will evolve as Global Champions in their chosen fields and stand as role models in society. May this Dussehra help us to march ahead as torch bearers to make a difference.
